## A Purpose and use

The FUCR reviews follow-up across all participants due in one period. It counts what the Participant Follow-up Visit Records (PFVR) show and does not reopen them: whether visits happened in their window (C, E), whether each required component was done (D), why something was missed (F) and what the site will change (H). Its result feeds indicator 3 of the Performance Indicator Record (PIR), which applies the rule.

| Unit of analysis | Decision supported | Inputs | Outputs |
|---|---|---|---|
| One site and one period: visits expected, completed and their components. | Whether follow-up is under control or needs correction, and where the problem sits. | PFVRs of the period, CIP visit schedule, outreach records, IQL for images. | The four measures for the PIR; causes, actions and their check. |

## B Review base

Fix the base before counting. Write counts with their units; never change a denominator to make periods look alike.

| | |
|---|---|
| **Participants with a visit due in the period** | 7 participants (014-001 to -007) |
| **Visits expected in the period** | 7 visits (3-month: 4; 6-week: 2; 2-week: 1) |
| **PFVRs used (IDs or range) and any missing** | PFVR-014-001-M3 to PFVR-014-007-W2 (6 records); no PFVR for the missed 6-week visit of 014-006 |
| **Comparable previous period (same CIP and schedule?)** | FUCR-014-2026-09: same CIP v4.2 and schedule; comparable |

Follow-up measures and components

SIMULATED · v0.7

| FUCR ID | Site / code | Period / data cut-off | Previous FUCR |
|---|---|---|---|
| FUCR-014-2026-10 | Riverside / 014 | Oct 2026 / 31 Oct | FUCR-014-2026-09 |

## C The four follow-up measures

Count from the PFVRs. The decision applies the rule of PIR indicator 3.

| Measure | Count | Base | Result (%) | Previous period | Change | Decision | PFVRs counted |
|---|---|---|---|---|---|---|---|
| **1 · Visits completed within their window** | 6 | Expected visits 7 | 86 | 7 / 7 (100%) | -14 points | ☐ Within rule ☒ Closer review ☐ Action required ☐ Not assessable | 014-006 missed |
| **2 · Visits with every required component** | 5 | Completed visits 6 | 83 | 6 / 7 (86%) | -3 points | ☐ Within rule ☐ Closer review ☒ Action required ☐ Not assessable | PFVR-014-003-M3 |
| **3 · Visits missing an endpoint component** | 1 | Completed visits needing it 6 | 17 | 1 / 7 (14%) | Same | ☐ Within rule ☐ Closer review ☒ Action required ☐ Not assessable | PFVR-014-003-M3 (ASES) |
| **4 · Participants not seen despite documented efforts** | 1 | Participants due 7 | 14 | 0 / 7 | +1 | ☐ Within rule ☒ Closer review ☐ Action required ☐ Not assessable | 014-006 (3 calls, letter) |

## D Components

Count a component only at visits where the CIP requires it; write Not required, not zero.

| Component | Expected | Complete | Missing | Complete (%) | PFVRs with a missing component |
|---|---|---|---|---|---|
| **Imaging** | 6 | 6 | 0 | 100 | |
| **Clinical scores (for example Constant)** | 4 | 4 | 0 | 100 | |
| **Participant questionnaires** | 6 | 5 | 1 | 83 | PFVR-014-003-M3 (ASES not done) |
| **Range of motion and examination** | 6 | 6 | 0 | 100 | |
| **Interval safety review** | 6 | 6 | 0 | 100 | |
| **Other component of the CIP** | Not required | | | | |

Timing and causes

SIMULATED · v0.7

| FUCR ID | Site / code | Period / data cut-off | Previous FUCR |
|---|---|---|---|
| FUCR-014-2026-10 | Riverside / 014 | Oct 2026 / 31 Oct | FUCR-014-2026-09 |

## E Timing

Each expected visit counted once.

| Timing | Count | Base | Result (%) | PFVRs |
|---|---|---|---|---|
| **Within the window** | 6 | 7 | 86 | All 6 PFVRs |
| **Early, outside the window** | 0 | 7 | 0 | |
| **Late, up to 7 days outside** | 0 | 7 | 0 | |
| **Late, more than 7 days outside** | 0 | 7 | 0 | |
| **Not obtained after documented efforts** | 1 | 7 | 14 | 014-006 (outreach log OL-014-006) |

## F Main causes

One main cause per problem, from the PFVR. Look for concentration: same staff member, week, visit type or component.

| Cause | Count | Measure affected (#) | Attribution | PFVRs | Concentration seen |
|---|---|---|---|---|---|
| **Participant availability** | 1 | 4 | ☐ Site ☒ Participant ☐ Protocol ☐ Mixed | 014-006 outreach log | Abroad 5 to 30 Oct |
| **Scheduling** | | | ☐ Site ☐ Participant ☐ Protocol ☐ Mixed | | |
| **Staffing or absence** | 2 | 2, 3 | ☒ Site ☐ Participant ☐ Protocol ☐ Mixed | PFVR-014-003-M3; PFVR-014-002-M3 | Both 1 to 14 Oct, research nurse on leave |
| **Imaging** | | | ☐ Site ☐ Participant ☐ Protocol ☐ Mixed | | |
| **Assessment not done correctly** | | | ☐ Site ☐ Participant ☐ Protocol ☐ Mixed | | |
| **Protocol design** | | | ☐ Site ☐ Participant ☐ Protocol ☐ Mixed | | |

Method check and actions

SIMULATED · v0.7

| FUCR ID | Site / code | Period / data cut-off | Previous FUCR |
|---|---|---|---|
| FUCR-014-2026-10 | Riverside / 014 | Oct 2026 / 31 Oct | FUCR-014-2026-09 |

## G Method check (when needed)

Only when C to F point to how an assessment is done. Otherwise write Not needed and why.

| Area checked | Why and which PFVRs | What was found | Linked record |
|---|---|---|---|
| Not needed | Missing ASES is a staffing gap, not a method problem (F) | | |
| | | | |

## H Actions

One row per cause the site must correct, not per missed visit. Set the check that will show the action worked.

| Action | What will change (cause in F) | Receiving record | Owner | Due | How we will know it worked |
|---|---|---|---|---|---|
| FUCR-A1 | Cover plan for questionnaires when the research nurse is away (staffing) | SRR R-13; PIR-A2 | Coordinator | 30 Nov | No missing questionnaire in November and December |
| FUCR-A2 | Offer 014-006 an unscheduled visit to collect the 6-week scores | PFVR-014-006-W6 | Research nurse | 10 Nov | Scores collected, or the limit recorded in the PFVR |
| | | | | | |
| | | | | | |

# FUCR - Follow-up Compliance Review

Earlier actions and conclusion

SIMULATED · v0.7

| FUCR ID | Site / code | Period / data cut-off | Previous FUCR |
|---|---|---|---|
| FUCR-014-2026-10 | Riverside / 014 | Oct 2026 / 31 Oct | FUCR-014-2026-09 |

## I Did earlier actions work?

Done is not the same as effective.

| Action | Check set when assigned | What this period shows | Result |
|---|---|---|---|
| FUCR-09-A1 | Reminder call 3 days before each visit: no visit late for scheduling | October: 0 visits late for scheduling | ☒ Worked<br>☐ Did not work<br>☐ Too early |
| | | | ☐ Worked<br>☐ Did not work<br>☐ Too early |

## J Conclusion

| | |
|---|---|
| **Follow-up in this period** | ☐ Under control ☐ Under control, watch next period ☒ Action required ☐ Escalation required |
| **Basis (measures, causes, records)** | Six of seven visits in window; one participant abroad (014-006). The only missing component, the ASES at 014-003, and the late ASES page at 014-002 both fall in the two weeks the research nurse was away: a site cause with no cover plan. PIR indicator 3: 5 of 7 visits in window with all components. |
| **Sent to (PIR indicator 3, IMC, CAPA, SRR, POT)** | PIR-014-2026-10, indicator 3; SRR R-13 |
| **Next review** | FUCR-014-2026-11, 3 Dec 2026 |
