PFVR — PARTICIPANT FOLLOW-UP VISIT RECORD

v0.4

SITE NAME / CODE	STUDY / PROTOCOL / CIP VERSION	PARTICIPANT ID	PFVR RECORD ID
VISIT NUMBER / NAME	**TARGET VISIT DATE**	**INITIAL VISIT DATE**	**DEVICE / STUDY ARM**
VISIT WINDOW — START / END / REFERENCE DATE		**VISIT OCCURRENCE — NOT COMPONENT COMPLETION** ☐ Attended ☐ Missed ☐ Pending	

A Purpose and Use

Use one PFVR for one participant and one protocol-defined follow-up visit. Record each required component, its method, actual date, evidence and findings. The visit date and component dates may differ.

Record later contacts for this same visit in C and update the linked component in D without obscuring earlier entries. Assess completion after reviewing the component evidence; documentation alone does not correct a missed method or window requirement.

This individual source record feeds the FUCR. Reference clinical, safety and deviation records when needed; aggregate compliance analysis remains in the FUCR.

B Applicable Visit Component Guide

Component family	Examples that may be applicable	Record in the visit component table
Imaging and objective tests	• CT • Radiographic examination • MRI • Ultrasound • Laboratory tests • Other protocol-defined tests	• Test performed • Date and window • Result available • Reviewer • Finding • Linked record
Patient-reported outcomes	• Pain • Discomfort • Functional limitation • Instability • Swelling • New symptom • Persistent symptom • Improvement / satisfaction	• Participant's words • Onset / duration • Severity / relevance • Change since prior visit • Action or referral • Linked record
Clinical and functional assessment	• Physical examination • Range of motion • Strength • Stability • Gait • Wound status • Functional score • Questionnaire / device exam	• Method / instrument • Assessor • Result • Comparison with prior visit • Relevant change • Action
Care and safety review	• Physiotherapy evaluation • Medication review • Safety review • Referral / complication follow-up	• Responsible person • Completion status • Linked record • Escalation • Follow-up action

C Visit Contacts and Later Component Completion

For a later contact belonging to this same scheduled visit, keep the PFVR ID and link the component number. Record a distinct protocol-defined visit in its own PFVR.

Contact	Actual Date / Mode	D Component No.	Purpose / result / source reference
Initial			
Return			
Return			

PARTICIPANT ID	PFVR RECORD ID	VISIT NUMBER / NAME

D Required Visit Components — Completion and Timing

No.	Component / Assessment — identify CtQ	Required / Actual Method	Planned Date / Window	Actual Assessment Date(s)	Completion	Timing	Result / Evidence / Impact / J Link
1					☐ Complete ☐ Partial ☐ Missed ☐ Pending	☐ In window ☐ Late ☐ Pending ☐ N/A	
2					☐ Complete ☐ Partial ☐ Missed ☐ Pending	☐ In window ☐ Late ☐ Pending ☐ N/A	
3					☐ Complete ☐ Partial ☐ Missed ☐ Pending	☐ In window ☐ Late ☐ Pending ☐ N/A	
4					☐ Complete ☐ Partial ☐ Missed ☐ Pending	☐ In window ☐ Late ☐ Pending ☐ N/A	
5					☐ Complete ☐ Partial ☐ Missed ☐ Pending	☐ In window ☐ Late ☐ Pending ☐ N/A	
6					☐ Complete ☐ Partial ☐ Missed ☐ Pending	☐ In window ☐ Late ☐ Pending ☐ N/A	
7					☐ Complete ☐ Partial ☐ Missed ☐ Pending	☐ In window ☐ Late ☐ Pending ☐ N/A	
8					☐ Complete ☐ Partial ☐ Missed ☐ Pending	☐ In window ☐ Late ☐ Pending ☐ N/A	

E Imaging and Objective Assessment Review

Review question	Yes	No	Finding / action / linked record
Were required imaging or objective assessments performed?	☐	☐	
Are results available and reviewed by an appropriately qualified person?	☐	☐	
Was an abnormal, unexpected or clinically relevant finding identified?	☐	☐	

PFVR — PARTICIPANT FOLLOW-UP VISIT RECORD

v0.4

PARTICIPANT ID	PFVR RECORD ID	VISIT NUMBER / NAME

F Participant-Reported Status Since Previous Visit

Open participant report: Record the participant's own relevant comments, including negative, persistent or positive changes. Do not classify a report as an adverse event solely within this section; refer it for the appropriate clinical or safety assessment when indicated.

Reported change / concern	Onset / duration / severity	Change since previous visit	Action / referral	Linked record
		☐ Improved ☐ Worse ☐ Unchanged		
		☐ Improved ☐ Worse ☐ Unchanged		
		☐ Improved ☐ Worse ☐ Unchanged		
		☐ Improved ☐ Worse ☐ Unchanged		

G Clinical and Physical Assessment

Assessment performed	Assessor / role	Method / instrument	Result / comparison with previous visit	Clinically relevant change / action

H Personnel and Continuity

Role / activity	Name / qualification	Same as previous visit?	Continuity, handover or supervision note
Operator / imaging assessor		☐ Yes ☐ No ☐ N/A	
Clinician / physical assessor		☐ Yes ☐ No ☐ N/A	
Physiotherapist / functional assessor		☐ Yes ☐ No ☐ N/A	

PFVR — PARTICIPANT FOLLOW-UP VISIT RECORD

v0.4

PARTICIPANT ID	PFVR RECORD ID	VISIT NUMBER / NAME

I Visit Compliance Review — After Component Assessment

Control Point	Status	Comment / Reference
The visit occurred within its nominal visit window (initial date and C).	☐ Complete ☐ Partial ☐ No ☐ N/A	
The visit followed the current protocol and visit instructions.	☐ Complete ☐ Partial ☐ No ☐ N/A	
Required assessments used the intended method (D; explain any difference).	☐ Complete ☐ Partial ☐ No ☐ N/A	
Results and participant reports were documented and reviewed.	☐ Complete ☐ Partial ☐ No ☐ N/A	
Any late, partial or missing component has a documented reason and data impact (D / J).	☐ Complete ☐ Partial ☐ No ☐ N/A	
Required referral, safety review or follow-up action was completed or assigned.	☐ Complete ☐ Partial ☐ No ☐ N/A	

J Visit Exception and Response

Use only for a visit-level exception requiring a response. Link the component or control point, document the cause and participant/data impact, and identify the action, owner and due date. Refer safety assessment or formal deviations to their controlled records.

Component / Signal / Cause	Participant / Data Impact and Response	Source / Safety / Deviation Link	Owner	Due Date	Status
					☐ Open ☐ Closed
					☐ Open ☐ Closed
					☐ Open ☐ Closed
					☐ Open ☐ Closed

PFVR — PARTICIPANT FOLLOW-UP VISIT RECORD

v0.4

PARTICIPANT ID	PFVR RECORD ID	VISIT NUMBER / NAME

K Overall Visit Outcome

Outcome	Meaning	Select one
Compliant	Required visit activities met the applicable timing, method and completion requirements.	☐ Select
Compliant with observation	A documented observation remains; no required timing, method or completion criterion was breached.	☐ Select
Non-compliant / action required	A timing, method, completion or response requirement was not met; record the impact and action in J.	☐ Select
Not assessable	There is insufficient information to determine the visit outcome.	☐ Select

Required CtQ Completion — Method and Window

☐ Criteria met ☐ Criteria not met ☐ Pending evidence ☐ No CtQ component required by CIP

Reconcile the required CtQ components in D. Record any late or missing component and its impact even if it is subsequently recovered. Transfer component-level facts to FUCR; retain the original timing classification.

Outcome Rationale / Open Components and Follow-up

Explain the visit classification and CtQ summary, outstanding evidence and planned follow-up. For a subsequent update, add the date, reviewer and source reference without replacing the earlier assessment.

L Review and Sign-off

Completed by / Role		Reviewed by / Role	
Name	_____	Name	_____
Role	_____	Role	_____
Signature	_____	Signature	_____
Date	_____	Date	_____

Record linkage: If this visit is later included in an aggregate Follow-up Compliance Review, retain the participant and visit identifiers needed for traceability while protecting confidentiality.
