CAPA - Corrective and Preventive Action Log

Log identification, purpose and classifications

CAPA · v1.0

Study / protocol	Site / code	CAPA log ID	Review period / cut-off
Review type ☐ Periodic ☐ Triggered ☐ Close-out	**Authoritative CAPA source (QMS extract)**	**Log owner / role**	**Previous review**

A Purpose and use

The CAPA log lists every corrective and preventive action (CAPA) of the site in one review period and reads them together: whether the list matches the authoritative CAPA source (D), where they concentrate (D), whether separate CAPAs share a cause (E), which ones are still active (F) and whether closed ones worked (G). Each CAPA keeps its own investigation and plan in its own record; the log cites them and does not repeat them.

Unit of analysis	Decision supported	Inputs	Outputs
The site's CAPAs for one period, one line each.	Whether the portfolio is under control, which CAPAs need follow-up, closure or reopening, and whether a pattern needs escalation.	CAPA records, the deviation, IMC, PIR, CSST and SRR records that raised them.	Distribution, patterns, follow-up and effectiveness; updates to the SRR, PIR and POT.

B Classifications

One category, one criticality and the status from the authoritative source for each CAPA.

Category

No.	Category	Use when the main problem is
1	**Participant rights and consent**	Consent, confidentiality, participant rights
2	**Protocol and procedure**	A CIP requirement or procedure step not followed
3	**Safety and device**	Safety reporting, device deficiency, accountability
4	**Endpoint, imaging and assessment**	Image, score or measurement quality
5	**Follow-up and retention**	Visit timing, completeness, recovery
6	**Data and documentation**	Source, CRF, queries, filing
7	**Training and delegation**	Training, release, delegation, supervision
8	**Oversight and governance**	PI oversight, review, escalation
9	**Systems and suppliers**	Equipment, supplier, loaner sets, facilities

Criticality

Criticality	Use when
High	Can harm a participant, the device evidence or an endpoint; PI review now
Medium	Repeats or affects several records; PI review at the next review
Low	Isolated, no effect on safety or endpoints

Status

Status	Meaning
Open	Analysis or plan pending
In progress	Actions being carried out
Effect pending	Actions done; effect not yet shown
Closed: effective	Check met
Closed with limit	Limit and residual risk accepted by the PI
Reopened	Problem came back; same ID

CAPA - Corrective and Preventive Action Log

CAPA register

CAPA · v1.0

CAPA log ID	Site / code	Review period / cut-off	Sheet no. / total sheets

C CAPA register

One line per CAPA in the period: New (opened in the period), Carried (active at the start) or Reopened. A reopened CAPA keeps its ID. Problem in one factual sentence; the content stays in the CAPA record.

CAPA ID	Opened · closed	Basis	Problem (one sentence)	Raised by (record)	Category no.	Criticality	Status	Owner
		☐ New ☐ Carried ☐ Reopened				☐ High ☐ Medium ☐ Low		
		☐ New ☐ Carried ☐ Reopened				☐ High ☐ Medium ☐ Low		
		☐ New ☐ Carried ☐ Reopened				☐ High ☐ Medium ☐ Low		
		☐ New ☐ Carried ☐ Reopened				☐ High ☐ Medium ☐ Low		
		☐ New ☐ Carried ☐ Reopened				☐ High ☐ Medium ☐ Low		
		☐ New ☐ Carried ☐ Reopened				☐ High ☐ Medium ☐ Low		
		☐ New ☐ Carried ☐ Reopened				☐ High ☐ Medium ☐ Low		
		☐ New ☐ Carried ☐ Reopened				☐ High ☐ Medium ☐ Low		
		☐ New ☐ Carried ☐ Reopened				☐ High ☐ Medium ☐ Low		
		☐ New ☐ Carried ☐ Reopened				☐ High ☐ Medium ☐ Low		

CAPA - Corrective and Preventive Action Log

Reconciliation and distribution

CAPA log ID	Site / code	Review period / cut-off	Previous review

D Reconciliation and distribution

Check the register against the authoritative source before counting. Count each CAPA once.

Reconciliation

Check	Result	Source extract · correction
Every CAPA in the authoritative source for the period is in the register	☐ Yes ☐ No	
No CAPA in the register is missing from the source	☐ Yes ☐ No	
No duplicate CAPA ID	☐ Yes ☐ No	
Status in the register matches the source	☐ Yes ☐ No	

Distribution by category and criticality

Category	High	Medium	Low	Total	CAPA IDs
1 · Participant rights and consent					
2 · Protocol and procedure					
3 · Safety and device					
4 · Endpoint, imaging and assessment					
5 · Follow-up and retention					
6 · Data and documentation					
7 · Training and delegation					
8 · Oversight and governance					
9 · Systems and suppliers					
Total					

CAPA - Corrective and Preventive Action Log

Patterns across CAPAs

CAPA log ID	Site / code	Review period / cut-off	Sheet no. / total sheets

E Patterns across CAPAs

Look for CAPAs that share a cause, a process step, a person, a supplier or a period, and compare with earlier reviews. Cite the CAPA records; do not repeat their investigation. Reprint this sheet if more rows are needed.

#	Pattern seen	CAPA IDs	What was compared (records and counts)	Shared cause?	Decision · route
1				☐ Supported ☐ Not supported ☐ Open	
2				☐ Supported ☐ Not supported ☐ Open	
3				☐ Supported ☐ Not supported ☐ Open	
4				☐ Supported ☐ Not supported ☐ Open	
5				☐ Supported ☐ Not supported ☐ Open	
6				☐ Supported ☐ Not supported ☐ Open	

CAPA - Corrective and Preventive Action Log

Active CAPAs

CAPA log ID	Site / code	Review period / cut-off	Sheet no. / total sheets

F Active CAPAs

One line per CAPA still open, in progress, effect pending or reopened (status as in C). The plan stays in the CAPA record. Reprint this sheet if more rows are needed.

CAPA ID	Next step	Owner	Due	Evidence expected or missing	Escalation

CAPA - Corrective and Preventive Action Log

Effectiveness and closure

CAPA log ID	Site / code	Review period / cut-off	Previous review

G Effectiveness, closure and reopening

Use the check set in each CAPA. Done is not the same as effective; a closure with a limit needs the residual risk accepted by the PI.

CAPA ID	Check set in the CAPA	Period checked	Evidence and result	Decision	Limit · residual risk · evaluator
				☐ Close: effective ☐ Close with limit ☐ Keep open ☐ Reopen	
				☐ Close: effective ☐ Close with limit ☐ Keep open ☐ Reopen	
				☐ Close: effective ☐ Close with limit ☐ Keep open ☐ Reopen	
				☐ Close: effective ☐ Close with limit ☐ Keep open ☐ Reopen	
				☐ Close: effective ☐ Close with limit ☐ Keep open ☐ Reopen	

CAPA - Corrective and Preventive Action Log

Outputs and conclusion

CAPA log ID	Site / code	Review period / cut-off	Previous review

H Outputs and conclusion

Only outputs created by this review; the receiving record keeps the content.

Output or update	From (CAPA or pattern)	Sent to (record)	Confirmed (date)

Portfolio	☐ Under control ☐ Under control with open CAPAs ☐ Not under control: escalation
Active CAPAs (number) · high criticality (IDs)	
Rationale and residual risk	
Next review
