FUCR - Follow-up Compliance Review

Review identification, purpose and measures

FUCR · v0.9

Study / protocol	CIP version	Site / code	FUCR ID
Period reviewed / data cut-off	**Previous FUCR**	**Review type** ☐ Routine ☐ Intensified ☐ Triggered	**Review date**
Participants due (n) · visits expected (n)	**PFVRs used (IDs or range)**		**Document owner / role**

A Purpose and use

The FUCR reads follow-up across all participants and visits, using the Participant Follow-up Visit Records (PFVR) without reopening them. It gives the four follow-up measures against the rule (B), maps every visit to date (C), shows which components fail at which time point (D) and how far visits drift from target (E), and looks for where problems concentrate and why (F). Its result feeds indicator 3 of the Performance Indicator Record (PIR).

Unit of analysis	Decision supported	Inputs	Outputs
One site and one period, read against all visits to date.	Whether follow-up is under control, where problems sit and whether they share a cause.	PFVRs, CIP visit schedule, outreach records, the PIR rule sheet.	Measures for the PIR; causes and actions with their check.

B Follow-up measures

Count from the PFVRs as n / N (%). The decision applies the rule of PIR indicator 3.

Measure	This period n / N (%)	Previous period n / N (%)	Rule limit	Decision
1 · Visits completed within their window N = expected visits				☐ Within rule ☐ Closer review ☐ Action required
2 · Visits with every required component N = completed visits				☐ Within rule ☐ Closer review ☐ Action required
3 · Visits missing an endpoint component N = completed visits				☐ Within rule ☐ Closer review ☐ Action required
4 · Participants not seen despite documented efforts N = participants due				☐ Within rule ☐ Closer review ☐ Action required

FUCR - Follow-up Compliance Review

Visit map

FUCR ID	Site / code	Period / data cut-off	Sheet no. / total sheets

C Visit map

One line per participant, every visit to date. Write in each cell: Complete, Late, Incomplete, Missed or Not due. A column or a line with several problems shows where they sit. Reprint this sheet for more participants, numbering the sheets.

Participant	2 weeks	6 weeks	3 months	6 months	12 months	24 months

FUCR - Follow-up Compliance Review

Components and distance from target

D Components by time point

For visits to date, write complete / expected for each component at each time point; a missed visit counts as missing for every component. Not required where the CIP does not ask for it.

Component	2 weeks	6 weeks	3 months	6 months	12 months	24 months
Imaging						
Clinical scores						
Participant questionnaires						
Examination and range of motion						
Interval safety review						

E Distance from target by time point

From the PFVRs: days between the target date and the visit. A drift towards the window edge warns before visits fall outside it.

Time point	Visits done	Median days from target	Range (earliest, latest)	Outside window	Window (CIP)
2 weeks					
6 weeks					
3 months					
6 months					
12 months					
24 months					

F Causes and where they concentrate

One main cause per problem, from the PFVR. Look for the person, weeks, component or time point where the problems gather, and compare the problem count there with the rest.

Cause	Count	Measures affected (#)	Attribution	Where it concentrates	There vs elsewhere (n / N)	PFVRs
Participant availability			☐ Site ☐ Participant ☐ Protocol ☐ Mixed			
Scheduling			☐ Site ☐ Participant ☐ Protocol ☐ Mixed			
Staffing or absence			☐ Site ☐ Participant ☐ Protocol ☐ Mixed			
Imaging			☐ Site ☐ Participant ☐ Protocol ☐ Mixed			
Assessment not done correctly			☐ Site ☐ Participant ☐ Protocol ☐ Mixed			
Protocol design			☐ Site ☐ Participant ☐ Protocol ☐ Mixed			

FUCR - Follow-up Compliance Review

Actions and conclusion

G Actions and earlier actions

One action per cause found in F, with the check that will show it worked; then the actions from earlier reviews.

Action	What will change (cause in F)	Receiving record	Owner	Due	How we will know it worked

Earlier action	Check set when assigned	What this period shows	Result
			☐ Worked ☐ Did not work ☐ Too early
			☐ Worked ☐ Did not work ☐ Too early

H Conclusion

Follow-up in this period	☐ Under control ☐ Watch next period ☐ Action required ☐ Escalation required
Basis (measures, map, causes)	
Sent to (PIR indicator 3, IMC, CAPA, SRR, POT)	
Next review
