PIDLR - Post-Investigation Debrief and Lessons Record

Debrief identification, purpose and inputs

Study / protocol	CIP version	Site / code	PIDLR ID / revision
Investigation status ☐ Completed ☐ Suspended ☐ Terminated	**Debrief type** ☐ Final ☐ Early closure	**Period covered / close-out date**	**Evidence cut-off**
Document owner / role	**PI**	**Reason for an early closure (if any)**	

A Purpose and use

The PIDLR turns what the site learned in one investigation into lessons that reach a controlled destination. It reviews the investigation by phase (C) and by domain (D), records each lesson with its evidence (E), sends it to the record that will own the change (F), states the residual limitations (G) and confirms that each lesson was applied to the instrument, workflow or document concerned (H) before the debrief is closed (I). It never reclassifies a safety event or a deviation, and it does not replace the CAPA log: it cites them.

Unit of analysis	Decision supported	Inputs	Outputs
One investigation at one site, up to a stated evidence cut-off.	Whether the debrief can close, and which lessons must be transferred and to whom.	MRL, PIR, IMC, CAPA log, SRR, safety and follow-up records (B).	Lessons with owners and destinations; revised procedures; notices to other studies.

B Inputs used

Cite the exact records. Limited or missing inputs restrict the lessons that can be drawn; say how.

Input	Record IDs or range	Available?	Limit on the lessons
Milestone Review Log (MRL)		☐ Adequate ☐ Limited ☐ Missing	
Performance Indicator Records (PIR)		☐ Adequate ☐ Limited ☐ Missing	
Internal monitoring (IMC)		☐ Adequate ☐ Limited ☐ Missing	
CAPA log		☐ Adequate ☐ Limited ☐ Missing	
Site Risk Register (SRR)		☐ Adequate ☐ Limited ☐ Missing	
Safety and complications (SART, SCML, CSST)		☐ Adequate ☐ Limited ☐ Missing	
Follow-up (FUCR)		☐ Adequate ☐ Limited ☐ Missing	
Learning curve (SLCT)		☐ Adequate ☐ Limited ☐ Missing	

PIDLR - Post-Investigation Debrief and Lessons Record

Review by phase

PIDLR ID	Study / site	Investigation status / evidence cut-off	Sheet no. / total sheets

C Review by phase

Only what supports a strength, a limitation or a lesson; case details stay in their records. N/A or Not assessable needs the reason.

Phase	Expected	What happened (record)	Review result	Lesson ID	Note
1 · Feasibility Site capability fits the investigation			☐ No lesson ☐ Strength ☐ Limitation ☐ Lesson		
2 · Start-up Controls, roles and release ready			☐ No lesson ☐ Strength ☐ Limitation ☐ Lesson		
3 · Enrollment Eligibility and consent controlled			☐ No lesson ☐ Strength ☐ Limitation ☐ Lesson		
4 · Surgery Technique, device traceability, learning curve			☐ No lesson ☐ Strength ☐ Limitation ☐ Lesson		
5 · Follow-up Assessments in window, retention			☐ No lesson ☐ Strength ☐ Limitation ☐ Lesson		
6 · Close-out Records reconciled, obligations handed over			☐ No lesson ☐ Strength ☐ Limitation ☐ Lesson		
7 · Continuous improvement Lessons handed over (E to I)			☐ No lesson ☐ Strength ☐ Limitation ☐ Lesson		
Across phases: safety Surveillance, reporting, escalation			☐ No lesson ☐ Strength ☐ Limitation ☐ Lesson		

PIDLR - Post-Investigation Debrief and Lessons Record

Review by domain

PIDLR ID	Study / site	Investigation status / evidence cut-off	Sheet no. / total sheets

D Review by domain

A strength to keep, a limitation, and what contributed. Label an unconfirmed explanation as a hypothesis. Only the domains that apply.

Domain	Strength kept	Limitation	What contributed	Evidence (records)	Lesson ID
Governance and accountability					
Risk management and escalation					
Surgery and device traceability					
Enrollment and eligibility					
Imaging and assessment					
Follow-up and retention					
Safety surveillance and reporting					
Data integrity					

PIDLR - Post-Investigation Debrief and Lessons Record

Lessons

PIDLR ID	Study / site	Investigation status / evidence cut-off	Sheet no. / total sheets

E Lessons

A lesson names a practice to keep or change, its evidence and where it goes. Type: Keep, Change, Add, Stop, Escalate, or Limit (an uncertainty to preserve). Priority High: safety, endpoint, traceability or a repeated failure; Medium: likely to recur; Low: refinement.

Lesson ID	Domain	Type	Lesson (one sentence)	Evidence (records)	Destination	Priority
		☐ Keep ☐ Change ☐ Add ☐ Stop ☐ Escalate ☐ Limit				☐ High ☐ Medium ☐ Low
		☐ Keep ☐ Change ☐ Add ☐ Stop ☐ Escalate ☐ Limit				☐ High ☐ Medium ☐ Low
		☐ Keep ☐ Change ☐ Add ☐ Stop ☐ Escalate ☐ Limit				☐ High ☐ Medium ☐ Low
		☐ Keep ☐ Change ☐ Add ☐ Stop ☐ Escalate ☐ Limit				☐ High ☐ Medium ☐ Low
		☐ Keep ☐ Change ☐ Add ☐ Stop ☐ Escalate ☐ Limit				☐ High ☐ Medium ☐ Low
		☐ Keep ☐ Change ☐ Add ☐ Stop ☐ Escalate ☐ Limit				☐ High ☐ Medium ☐ Low
		☐ Keep ☐ Change ☐ Add ☐ Stop ☐ Escalate ☐ Limit				☐ High ☐ Medium ☐ Low

PIDLR - Post-Investigation Debrief and Lessons Record

Transfer of lessons

PIDLR ID	Study / site	Investigation status / evidence cut-off	Sheet no. / total sheets

F Transfer of lessons

The Lesson ID goes into each receiving record, which owns the change.

Lesson ID	Scope	Change needed	Receiving record · version	Owner	Due	Stage
	☐ Site practice ☐ Future study ☐ Sponsor ☐ No transfer					☐ Planned ☐ Accepted ☐ Applied
	☐ Site practice ☐ Future study ☐ Sponsor ☐ No transfer					☐ Planned ☐ Accepted ☐ Applied
	☐ Site practice ☐ Future study ☐ Sponsor ☐ No transfer					☐ Planned ☐ Accepted ☐ Applied
	☐ Site practice ☐ Future study ☐ Sponsor ☐ No transfer					☐ Planned ☐ Accepted ☐ Applied
	☐ Site practice ☐ Future study ☐ Sponsor ☐ No transfer					☐ Planned ☐ Accepted ☐ Applied
	☐ Site practice ☐ Future study ☐ Sponsor ☐ No transfer					☐ Planned ☐ Accepted ☐ Applied

PIDLR - Post-Investigation Debrief and Lessons Record

Residual limitations and implementation

PIDLR ID	Study / site	Investigation status / evidence cut-off	Sheet no. / total sheets

G Residual limitations

What could not be settled by this investigation, why, and which record carries it forward.

Lesson ID	Limitation	Why it remains	Receiving record · owner	Next review

H Implementation of lessons

Confirm that each lesson was applied to the instrument, workflow or document concerned. Whether the change works is followed in the receiving record, not here.

Lesson ID	Receiving record	Change made	Evidence (record · version · date)	Status	Owner of what remains
				☐ Applied ☐ Partly applied ☐ Not yet applied	
				☐ Applied ☐ Partly applied ☐ Not yet applied	
				☐ Applied ☐ Partly applied ☐ Not yet applied	
				☐ Applied ☐ Partly applied ☐ Not yet applied	
				☐ Applied ☐ Partly applied ☐ Not yet applied	

PIDLR - Post-Investigation Debrief and Lessons Record

Closing the debrief

PIDLR · v0.4

PIDLR ID	Study / site	Investigation status / evidence cut-off	Sheet no. / total sheets

| Closing the debrief

The debrief closes when each lesson is applied or has a receiving record, an owner and a date.

Closure	Use when	Select
Debrief closed	All lessons applied; no open limitation of the debrief.	☐
Closed with tracked transfers	Each lesson not yet applied, and each limitation, has a receiving record, an owner and a date.	☐
Not ready to close	A lesson lacks evidence, a destination or an owner.	☐

Open transfers (lesson IDs · owners)	
Revised procedures (version · release date)	
Other studies notified	
Debrief file location and retention	
Rationale and remaining limits
