DTRM - Device and Study Training Requirements Matrix

v0.2 / SIMULATED

Study / Protocol	Site / Code	Matrix / Record ID	Effective Date
GLENOS-01 / GS-2026-01	Riverside Orthopedic Center / 014	DTRM-014-2026-02	30 Sep 2026
CIP / Procedure Version	**Device / IFU Version**	**Training Package Reference**	**Approval Status**
CIP v4.2 / 15 Sep 2026	GLENOS reverse shoulder system / IFU v2.0	Sponsor TP-GS-014 v3.0	Approved requirements; no individual release
Change Trigger / Reason		**Linked Controlled Records**	
CCDM v0.2 revision; sponsor substitution refresher after PD-014-07 (glenoid baseplate substitution not escalated).		CCDM-014 v0.2; SCR; ICDL; PFVR; IC v2.1; SSP-07 v3; CAPA-014-2026-003.	

A Purpose, Use and decision boundary

Purpose and use: Map current sponsor and study training requirements to site functions. Use this matrix to define what each profile needs, not to create technical training content or authorize staff. Individual completion, competence and release remain in the TRE; task boundaries and supervision remain in the CCDM; the assignment of released people to tasks is recorded in the RACI.

Element	Scope / decision	Record / link
Unit of analysis	One site matrix for defined role profiles and the current training package.	Profile IDs in C; module IDs and the CCDM task IDs they support in D.
Decision supported	Identify applicable requirements before an individual is considered for a delegated function.	TR / AS / CD / AW / NA in E and F; conditions stated in the last column.
Inputs	Current sponsor materials, protocol, IFU and site delegation / supervision boundaries.	CIP, training package and CCDM versions; controlled source locations.
Outputs / boundary	Role-specific requirements and targeted change-impact decisions. Not attendance, competence or individual authorization.	Feeds the TRE (the requirement each individual release is checked against) and the RACI (the profiles a released person may be assigned to). SCR where applicable; CCDM for task limits.

B Requirement code and consequence

TR - Trained
Complete the module before performing the relevant activity. Evidence of completion is enough.

AS - Assessed
Complete the module and demonstrate competence by the method in D before performing the activity independently.

CD - Conditional
Applies only to the stated activity or trigger. The condition column gives the level that then applies (TR or AS).

AW - Awareness
Know the topic and the escalation route; no technical activity is assigned.

NA - Not applicable
Outside this profile's function; the module does not apply.

Approval of this matrix sets the training standard only. It does not release any person and does not change CCDM task boundaries or supervision.

DTRM - Device and Study Training Requirements Matrix

Role and module register

C Role profile register

Profile ID	Role / function group	Activity boundary / CCDM	Profile owner (role)	Prerequisite
P-01	PI / medical reviewer	C1 / S0: final eligibility and safety classification; CCDM T01, T02.	PI	Medical license; GCP certificate
P-02	Operating surgeon	C2 / S1 + S2: reverse shoulder arthroplasty implantation; CCDM T03. First cases supervised.	Senior shoulder surgeon	Surgical privileges; SCR credentialing
P-03	OR nurse / device custodian	C2 / S2: implant identification and substitution record, T04. C2 / S1 + S2: accountability and explants, T09.	OR nursing lead	Nursing registration
P-04	Radiographer	C2 / S1 + S2: postoperative radiographs per imaging charter; CCDM T05. No endpoint reading.	Radiology liaison	Radiography registration
P-05	Functional assessor (physiotherapist)	C2 / S2: ROM measurement and PROM administration; CCDM T06. No interpretation.	Physiotherapy lead	Physiotherapy registration
P-06	Study coordinator	C3 / S3: follow-up scheduling, T07. C2 / S2: safety intake and routing, T10.	PI	GCP certificate
P-07	Data QA function	C3 / S3: eCRF transcription and filing; CCDM T08. Clinical discrepancies go to the PI.	Data lead	GCP certificate; EDC access

D Training module inventory

Current sponsor-provided or study-required activities only. The matrix maps applicability; the linked package remains the source of technical content.

Module ID	Training activity / subject	CCDM tasks	Controlled source / version	Assessment method (AS)	Renewal / retraining trigger
MOD-01	Protocol, eligibility and visit windows	T01, T07	Sponsor TP-GS-014 / CIP training; CIP v4.2, TP v3.0, 15 Sep 2026	Not assessed (TR only)	Each CIP amendment; new delegated task
MOD-02	Reverse shoulder system: instrumentation, components and surgical technique	T03	Sponsor device training; STG v2.0, IFU v2.0, 01 Sep 2026	Supervised first cases; senior surgeon sign-off	IFU or technique revision; new component; performance concern
MOD-03	Device accountability, custody and explant handling	T04, T09	Sponsor accountability manual; DAM v1.3, 01 Sep 2026	Observed reconciliation of one case	Storage, custody or return-process change
MOD-04	Postoperative radiographs per imaging charter	T05	Sponsor imaging package; IC v2.1, 21 Aug 2026	Test image set checked against the charter	Charter revision; equipment or projection change
MOD-05	ROM measurement and PROM administration (Constant-Murley, ASES)	T06	Sponsor outcome assessment manual; OAM v1.1, 10 Sep 2026	Observed assessments against the method	Assessor change; method revision; inconsistent results
MOD-06	Safety intake, classification and routing	T02, T10	Sponsor safety package; SSP-07 v3, 15 Sep 2026	Simulated intake case reviewed by the PI	Annual; reporting pathway or safety requirement change
MOD-07	Source documentation and eCRF workflow	T08	Sponsor EDC training; EDC guide v2.4, 10 Sep 2026	Supervised data-entry check	Annual; EDC version or access role; recurrent data error
MOD-08	Intraoperative component substitution and escalation refresher	T03, T04	Sponsor bulletin DCB-01 v1.0, 24 Sep 2026	Case review with the senior surgeon	Substitution signal; revised escalation guidance

DTRM - Device and Study Training Requirements Matrix

Study / site	DTRM record ID / revision	Effective date	Mapping sheet number / total sheets
GLENOS-01 / Site 014	DTRM-014-2026-02 / v0.2	30 Sep 2026	1 / 2

E Role-to-requirement matrix - profiles 1 to 4

Module ID	Training activity / subject	P-01 PI / medical reviewer	P-02 Operating surgeon	P-03 OR nurse / custodian	P-04 Radiographer	Condition, limitation or release boundary
MOD-01	Protocol, eligibility and visit windows	TR	TR	TR	TR	CIP roles and windows; PI retains the eligibility decision.
MOD-02	Reverse shoulder system and surgical technique	AW	AS	TR	NA	P-02: AS by supervised first cases (T03); SCR credentialing is a prerequisite. P-03: preparation and handling only.
MOD-03	Device accountability, custody and explant handling	AW	TR	AS	NA	P-03: AS by observed reconciliation (T04, T09).
MOD-04	Postoperative radiographs per imaging charter	AW	AW	NA	AS	P-04: AS by a test image set checked by the radiology liaison (T05).
MOD-05	ROM measurement and PROM administration	AW	AW	NA	NA	Assessment is assigned to P-05, not these profiles.
MOD-06	Safety intake, classification and routing	TR	TR	AW	AW	PI classifies; surgeon reports findings; others escalate.
MOD-07	Source documentation and eCRF workflow	CD	TR	TR	CD	P-01: CD, TR if medical-query review is assigned. P-04: CD, TR if image upload is assigned.
MOD-08	Component substitution and escalation refresher	TR	AS	TR	NA	P-02: AS before the next independent case. P-03: records substitutions in the ICDL.

If more modules are needed, reprint this page, number each mapping sheet and include all sheets in the final approved DTRM.

DTRM - Device and Study Training Requirements Matrix

Study / site	DTRM record ID / revision	Effective date	Mapping sheet number / total sheets
GLENOS-01 / Site 014	DTRM-014-2026-02 / v0.2	30 Sep 2026	2 / 2

F Role-to-requirement matrix - profiles 5 to 7

Module ID	Training activity / subject	P-05 Functional assessor	P-06 Study coordinator	P-07 Data QA function	Condition, limitation or release boundary
MOD-01	Protocol, eligibility and visit windows	TR	TR	TR	P-06 schedules 6-week, 3-month and 12-month visits within window.
MOD-02	Reverse shoulder system and surgical technique	NA	AW	NA	P-06 awareness for routing; no device handling.
MOD-03	Device accountability, custody and explant handling	NA	AW	AW	Awareness of the custody link only.
MOD-04	Postoperative radiographs per imaging charter	NA	AW	CD	P-07: CD, TR if image transfer checks are assigned.
MOD-05	ROM measurement and PROM administration	AS	AW	NA	P-05: AS by observed assessments (T06); records results in the PFVR without interpreting them.
MOD-06	Safety intake, classification and routing	AW	AS	AW	P-06: AS by a simulated intake case (T10); PI retains the final assessment.
MOD-07	Source documentation and eCRF workflow	TR	TR	AS	P-07: AS by a supervised data-entry check (T08).
MOD-08	Component substitution and escalation refresher	NA	TR	AW	P-06 routes substitution reports; P-07 tracks linked actions.

If more profiles are needed, reprint this page with the next profile numbers, number each mapping sheet and include all sheets in the final approved DTRM.

DTRM - Device and Study Training Requirements Matrix

Review and approval

G Matrix completion and individual-record gate

Before issue, confirm that...	Yes	No	Evidence / action
Profiles match current CCDM task boundaries and supervision.	☑	☐	CCDM-014 v0.2 / tasks T01-T10
Every module has a current controlled source / version.	☑	☐	TP-GS-014 v3.0; source register / section D
Codes reflect each profile's actual activities.	☑	☐	P-01 to P-07 reconciled with CCDM T01-T10
Every AS code has an assessment method in Section D.	☑	☐	MOD-02 to MOD-08: method stated in D
Every CD code states its condition and the level that applies.	☑	☐	MOD-07 / P-01, P-04; MOD-04 / P-07

H Change, retraining and matrix-impact log

Date / trigger	Affected modules / profiles	Requirement change / individual impact	Owner / due boundary	Status / linked record
15 Sep 2026 CIP v4.2 issued	MOD-01 / 06 / 07; relevant P-01 to P-07	Update protocol and safety references; assess changed tasks, not all training.	Maria Silva / PI Before amendment use	Requirements updated; impact listed in AM-014-04
24 Sep 2026 DCB-01 / PD-014-07	MOD-08; P-02; awareness P-01 / 03 / 06 / 07	Add sponsor substitution refresher; P-02 moves to AS for MOD-08.	Dr Lina Costa Before next independent case	Requirement changed; CAPA-014-2026-003
29 Sep 2026 CCDM v0.2 approved	P-02 to P-07; related modules	Align profiles and modules with CCDM T01-T10.	Maria Silva / profile owners 30 Sep 2026	Matrix issued

I Approval and controlled use

Approval controls the requirements reference only. It does not release any person and does not change CCDM task boundaries or supervision.

Matrix owner

Name / role: **Maria Silva / Study Coordinator**

Signature / date: **/s/ M. Silva - 29 Sep 2026 (demo)**

PI / accountable approver

Name / role: **Dr Alex Morgan / PI**

Signature / date: **/s/ A. Morgan - 29 Sep 2026 (demo)**
