TRE - Training Record Evaluation and Release

Individual qualification, training, assessment and release

SIMULATED · v0.4

Site / code	Protocol	Person name / ID	Role / function
Riverside Orthopedic Center / 014	GLENOS-01 / GS-2026-01	Ana Ribeiro / ST-014-11	Functional assessor (physiotherapist)
TRE record ID	**Record revision**	**Evaluator / assessor**	**Date opened**
TRE-014-11	v1	J. Park / Physiotherapy lead	22 Sep 2026

Reason for record
☑ Initial qualification ☐ New function ☐ Periodic review ☐ Triggered review

Linked CCDM version / DTRM version / DTRM profile ID
CCDM-014 v0.2 / DTRM-014-2026-02 v0.2 / P-05

A Purpose and Use of this individual record

This record follows one person through **qualification, training, competence assessment and release** to perform defined study tasks. It is completed for the person's actual role and the tasks that person is being considered for.

The training required for this person comes from the DTRM: the profile named in the header and the modules that apply to it, with the assessment method the DTRM states for each module that needs one. The evaluator records this person's evidence against that standard and does not define a separate catalogue.

The CCDM remains the source for the criticality code, supervision level and task boundary of each task. For surgical tasks, the SCR credentialing decision is a qualification prerequisite recorded in Section B. The release recorded in Section E, per CCDM task ID, feeds the RACI, which assigns a C2 or C3 task only to a person released here.

B Individual qualification and competence profile

Qualification / competence area	What is required for the assigned function	Evidence used	Result	Date / assessor
Professional registration	Physiotherapy registration (DTRM P-05 prerequisite)	Registration PT-55821, original seen	☑ Suitable ☐ Gap	22 Sep 2026 / J. Park
GCP training	Current GCP certificate	Certificate dated 03 Mar 2026	☑ Suitable ☐ Gap	22 Sep 2026 / J. Park
Shoulder assessment experience	Goniometric shoulder assessment in routine practice	CV: 4 years in shoulder rehabilitation	☑ Suitable ☐ Gap	22 Sep 2026 / J. Park
PROM administration language	Administer Constant-Murley and ASES in the participant's language	Interview; PROM manual read	☑ Suitable ☐ Gap	22 Sep 2026 / J. Park

Use the prerequisites of the DTRM profile. For surgical tasks, record the SCR credentialing decision (SCR ID and outcome) as a qualification row; the SCR checks qualification, and this record covers training.

C Training record

No.	DTRM module ID	Training activity / subject	Purpose for this function	Training method	Completed date	Trainer / provider	Record status
1	MOD-01	Protocol, eligibility and visit windows	Know the 6-week, 3-month and 12-month assessment windows	Sponsor CIP session	24 Sep 2026	Sponsor CRA	☑ Complete ☐ Open
2	MOD-05	ROM measurement and PROM administration	Perform endpoint assessments by the defined method	OAM v1.1 + practical session	25 Sep 2026	J. Park	☑ Complete ☐ Open
3	MOD-06	Safety intake awareness	Recognize and route safety information	Read and acknowledge SSP-07 v3	25 Sep 2026	Study coordinator	☑ Complete ☐ Open
4	MOD-07	Source documentation and eCRF workflow	Record results in the PFVR and source	EDC guide v2.4 session	26 Sep 2026	Data lead	☑ Complete ☐ Open
5							☐ Complete ☐ Open
6							☐ Complete ☐ Open
7							☐ Complete ☐ Open
8							☐ Complete ☐ Open
9							☐ Complete ☐ Open
10							☐ Complete ☐ Open

Open one row for each DTRM module that applies to this person's profile. Leave unrelated training out of this record. Attach a continuation page if more than ten modules apply.

D Competence assessment record

No.	DTRM module ID	Competence element	Expected competence	Method (per DTRM)	Assessment date	Assessor	Outcome
1	MOD-05	Goniometric ROM (flexion, abduction, external rotation)	Within 5 degrees of the lead assessor on the same participant	Observed assessments	29 Sep 2026	J. Park	☑ Pass ☐ Conditional ☐ Gap
2	MOD-05	Constant-Murley and ASES administration	Correct sequence and scoring, no prompting	Observed assessments	29 Sep 2026	J. Park	☑ Pass ☐ Conditional ☐ Gap
3							☐ Pass ☐ Conditional ☐ Gap
4							☐ Pass ☐ Conditional ☐ Gap
5							☐ Pass ☐ Conditional ☐ Gap
6							☐ Pass ☐ Conditional ☐ Gap
7							☐ Pass ☐ Conditional ☐ Gap
8							☐ Pass ☐ Conditional ☐ Gap
9							☐ Pass ☐ Conditional ☐ Gap
10							☐ Pass ☐ Conditional ☐ Gap

Use one row for each competence element that requires an assessment, with the method the DTRM states for that module.

TRE - Training Record Evaluation and Release

Task release and maintenance

SIMULATED · v0.4

E Task release register

Released: the person may perform the task within the recorded scope and supervision. **Conditional:** only under the recorded restrictions, supervision or follow-up; record the condition and the evidence needed for full release. **Not released:** the person must not perform the task until reassessed.

CCDM task ID	Function / activity	CCDM code	Supervision	Permitted scope / restrictions	Release status	Effective date	Next review / expiry
T06	ROM measurement and PROM administration	C2	S2	Assess and record only; no interpretation of results. First three participants double-checked by the physiotherapy lead.	☑ Released ☐ Conditional ☐ Not released	30 Sep 2026	30 Mar 2027
					☐ Released ☐ Conditional ☐ Not released		
					☐ Released ☐ Conditional ☐ Not released		
					☐ Released ☐ Conditional ☐ Not released		

Record one row per CCDM task for which this person is being considered. Use the current CCDM for code, supervision and boundaries. The RACI assigns a C2 or C3 task only to a person released here.

F Release maintenance and periodic review

Review date	Trigger	Task or release affected	Review conclusion / change made	Reviewer	Next review
	☐ DTRM module revised ☐ CIP amendment ☐ SLCT review ☐ IMC finding ☐ CAPA ☐ Periodic review ☐ Other				
	☐ DTRM module revised ☐ CIP amendment ☐ SLCT review ☐ IMC finding ☐ CAPA ☐ Periodic review ☐ Other				

Use this log to keep an active release current: review events, changes in function or supervision, and confirmation that the release remains appropriate.

TRE - Training Record Evaluation and Release

Final check and approval

SIMULATED · v0.4

G Final release check

Final question	Yes	No	Reference / action
The person meets the qualification and role requirements of the DTRM profile (Section B).	☑	☐	Section B, rows 1 to 4
The training record contains every DTRM module that applies to this profile (Section C).	☑	☐	Section C: MOD-01, 05, 06, 07
Every required assessment is recorded with its outcome (Section D).	☑	☐	Section D, rows 1 and 2
Release scope, supervision, restrictions and review dates are documented for each task (Section E).	☑	☐	Section E: T06
The release is consistent with all outstanding actions or conditions.	☑	☐	No open actions

H Approval and controlled record

I confirm that this individual record was completed for the named person. The release applies only to the tasks, scope, supervision and conditions recorded in Section E. It does not authorize other tasks or override PI-retained decisions.

Evaluator / training assessor

Name / role: J. Park / Physiotherapy lead

Signature / date: /s/ J. Park - 30 Sep 2026 (demo)

Supervisor / functional reviewer

Name / role: Dr Lina Costa / Senior shoulder surgeon

Signature / date: /s/ L. Costa - 30 Sep 2026 (demo)

PI / accountable approver

Name / role: Dr Alex Morgan / PI

Signature / date: /s/ A. Morgan - 30 Sep 2026 (demo)

Person receiving release

Name / role: Ana Ribeiro / Functional assessor

Signature / date: /s/ A. Ribeiro - 30 Sep 2026 (demo)

Document control: File this record with the current CCDM and DTRM references and the qualification, training and assessment evidence it cites. Re-open the record when a release maintenance trigger occurs.
